Hi everyone,

Thanks Bo.

Jennifer Schofield has been in touch and early this morning confirmed our meeting scheduled tomorrow at 11:30am with Rick and Jennifer.

We will miss you Bo!

Hi Rick –

I'm just now getting to this email. I no longer work in a product branch and Julie is on a detail in EFED, therefore I'm copying Catherine Aubee. She is a branch chief for the branch that has most of the pet products.

Hope this helps.
Bo

Probably, best, then, that this meeting be coordinated by RD and they be the ones that make the arrangements. I've cc'd Dr. Julie Breeden on this and well as Kable (Bo) Davis, one of whom should reach out to you about scheduling or should connect with the right person in RD.

David.

David,

Turns out that Dr. Schofield is meeting with Michael Goodis Thursday morning. I'm not sure I was clear that we could likely make most times tomorrow, Wednesday, work if that's a possibility.

Rick

Hello Rick,

Nice to hear from you.

I think Thursday morning might work out best. Let me check with some other folks here and get back to you tomorrow (Tuesday).

Also, if we meet it will need to be to discuss only technical issues related to rates, etc. There would need to be broader cross section of folks involved at this end to have any expanded discussion and that would need to be coordinated by our risk managers from another division.

David.

Hello David,

I'll be in town this week for the HCPA meeting. I thought maybe there might be an opportunity to stop by your office for a few minutes with a Dr. Jennifer Schofield, a Bayer Animal Health colleague to show you some incident trending we done regarding Seresto. As you know they have been tracking their incident experience for Seresto and when looking at

recent trends the data was pretty interesting. I suggested seeing if maybe we could stop by and show you some of what they found as I think you would find it interesting as well.

The best day for me looks like Wednesday or Thursday morning.

Let me know if something might work on your end.

Best,

Rick
